Here is Senator Craig's Arrest Report – Call To Support Him

Police Report:

You should read the two page police report. Pretty flimsy evidence it seems to me. Others who have read it agree.

Frankly, I've been in that Minnesota airport many times. Virtually everything Senator Craig did, I have done. I have a medical problem that means I must find a usable stall quickly. I've looked in stalls. I always take my roller bag in the stall with me.

There is an old saying that applies to politicians and policemen: "If the only tool they had was a hammer, everything they saw would begin to look like a nail."

This policeman looks overzealous to us.

Nothing in the police report says Larry Craig actually did anything. The policeman was reading his body language and the tea leaves to divine what he was thinking about doing or trying to do.

It was the policeman's perception that Senator Craig was trying to do something. Larry Craig deserves our support and action on his behalf.

The whole arrest report is flimsy.

Should Senator Craig have signed a paper saying he was guilty of disorderly conduct? We believe that was a mistake. According to him he was just trying to put this whole arrest thing behind him after being constantly harassed by the Idaho Statesman.

I believe him.

He's been in the trenches with us for so many years that I'm going to stand up for him.

I'm ashamed of the Republicans who so easily throw their friend over the side for political convenience.

I'm ashamed of how the Republican party has failed to stand behind Senator Craig.

No Senator in recent years has done more to protect private property and the use of Federal land than Larry Craig. He has been a stand up guy time after time. He's raised money for many Republicans who now are running out of Dodge when the going gets tough.

If you care about the future of your private property and the use of Federal lands, then you better call both your Senators today at (202) 224-3121.

Now is the time to stand up for Larry Craig.

Urge your friends, business associates and neighbors to do the same.

By selling out Larry Craig now, you will weaken our ability to get a fair hearing in the Senate Energy and Natural Resources Committee. It has turned soft and has not done its homework in recent years.

There are only a very few Members of that Committee that you can count on. Their number of statesmen has dwindled greatly.

The Committee needs Senator Larry Craig's leadership.

Now is the time for us to show our gratitude for all he has done for us.

Make your calls today.

Call any Senator at (202) 224-3121.

When you are thinking about President Candidates, think about those that easily sell out their friends.

Presidential Candidates Senator John McCain and Mitt Romney have jumped the gun.

Won't these guys make great Presidents the way they stand up for their friends. At the first sign of tough times, they throw them over the side with little or no documentation. They're going to be embarrassed as time progresses. You'll be embarrassed if you elect them.

And make sure Senator Norm Coleman from Minnesota hears from you. He is another guy you would not want to go into the trenches with. What a stand up guy he has turned out to be. At the first sign of difficulty, he runs.
